

**DETAILED ACTION**

1. Claims 1-16 are currently pending in the instant application.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**In the Claims:**

Claim 14: Canceled

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: The instantly claimed compounds are novel and non-obvious over the prior art because of the combination of the pyrazole ring with R<sup>3</sup> or R<sup>8</sup> substituent and the -O-CH<sub>2</sub>CH=C(R<sub>6</sub>)(R<sub>7</sub>). The closest prior art is Hamaguchi et al. (JP 63183564). This reference does not encompass the scope of the instant application, which includes the aforementioned novelty. This reference lacks identical or obvious substituents at the aforementioned position. A person of ordinary skill in the art would not have expected that making these structural modifications would retain identical activity as disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
